# Professional Learning Providers Academy for Amplify Science

**Join a growing community of instructional leaders who are supporting teachers, schools, and districts to successfully implement Amplify Science!**

Connect with a community of instructional leaders as you improve and invigorate the professional learning you facilitate. You don't have to be alone in your trials and triumphs! Join this nationwide community of professional learning providers who support the implementation of Amplify Science. Brought to you through a partnership between The Lawrence Hall of Science and Making Sense of SCIENCE.

## Foundations

A 9-week series that welcomes you into our community and provides support for the many responsibilities that professional learning providers have in districts. You'll be better able to support district-wide Amplify Science implementation, to lead PL for teachers and leaders, and to connect your science efforts to other district initiatives. Foundations also provides all the digital materials needed to lead PL sessions for your teachers and leaders.

## Trending Topics

Trending Topics are shorter, focused learning opportunities *available only to Foundations graduates*. They provide targeted support to help you reach specific audiences and achieve specific goals. Each year, a new Trending Topic will be offered—allowing your participation in the Academy community to continue to enrich your work year after year.

### What do our current members say about the Academy?

"This was a fantastic first session! I have already used many of the strategies in a meeting I hosted this week."

"These sessions are the only thing I know I can look forward to in my week. The design, facilitation, and participants are all amazing."

"The entire Zoom meeting was an excellent model of an engaging professional learning session."

## Foundations

### Fall 2022 Cohort

**October 6–December 8, 2022**

Sessions held Thursdays, 9–11am (Pacific Time), with a break for Thanksgiving.

Become a part of a community of instructional leaders, get support in your multifaceted role as a district science leader, and reinvigorate the professional learning you lead. You will also be given full access to high-quality professional learning session plans and materials for supporting phenomenon-based instruction, student discourse, accelerating learning, and more!

**Cost: \$900**

**Please register by Friday, September 16, 2022.**

### Ready to join?

Space is limited. Register at [AmplifySciencePL.org/academy](https://AmplifySciencePL.org/academy)

*Note:* Attendance in a Foundations series is a prerequisite for our Trending Topics.

Attendance in a Foundations series is a prerequisite for our Trending Topics.

### Teacher Induction

**May 19, May 26, June 2, 2022**

Sessions held Thursdays, 9–11am (Pacific Time).

How do you provide comprehensive support to teachers who are new to your Amplify Science implementation? Support will be provided to make the case for Amplify Science, induct teachers and leaders new to your site's vision for Amplify Science, and to provide the ongoing support, mentoring, and learning needed to sustain their progress.

**Cost: \$400**

**Please register by Friday, April 29, 2022.**

Each individual participant will be granted a limited, nonexclusive, nontransferable, revocable license for personal use of the tools provided.
